

GENERAL MESSAGE		
TO: Unified Command : via PSC	POSITION: FOSC, EPA - OSC, SOSC, LOSC, RPIC	
FROM: Mike Connell	POSITION: EUL	
SUBJECT: Amending Section 5 Monitoring Plan/ Additional Monitoring	DATE: 01/25/2017	TIME: 06:30 CST
MESSAGE:		
<p>Forecasters said the weekend storm was the strongest in several years. It caused widespread flooding in Santa Barbara County after several hours of sustained, pouring rain. See attached rainfall tables.</p> <p>In the light of the current rainfall events, Unified Command intends to amend the existing Refugio Incident Response Cliff Face Area (Section 5) Monitoring Plan (Monitoring Plan) to include some additional monitoring as a result of this multi-day storm.</p> <p>This amendment would include four (4) daily inspections of the Section 5 Cliff Face and Section 4 Culvert System from Saturday January 21 through Tuesday January 24. These inspections would be completed 3 times a day to measure rainfall at the site, document the stability of the cliff face and culvert system, and to activate emergency responders should a catastrophic failure occur at the two structures and oil was released during this prolonged rainfall event. For this reason, an OSRO rated clean-up crew would be placed on stand-by during this time period.</p> <p>In addition, the Unified Command directs the Environmental Unit Leader to conduct one (1) additional monitoring event following this "historic" multi-day storm event. This additional event would document the condition of the cliff face and culvert system following a "historic" rainfall in the area. This survey would be consistent with the surveys that have been completed in the past under the Section 5 Monitoring Plan.</p>

Good Morning Unified Command,

Attached is the updated version of the Section 5 Amendment with Captain Downey's comments integrated into the document. Please circulate for electronic approval.

Respectfully,
Ryan Andersen

Subject: RE: Section 5 Amendment and Additional Monitoring ICS213 [External]

UC and Ryan,

I have a few recommendations:

1. Second paragraph: Change "Unified Command requests to amend the existing..." to "Unified Command intends to amend the existing..."
2. Second paragraph: Change "... as a result of this significant storm." to "... as a result of this multi-day storm." This is consistent with the language in the Monitoring Plan and the last paragraph of this 213. The descriptor "significant" is only linked to the highest threshold, 3.5 inches or more of rain.
3. Last paragraph: Change "In addition, we would like to add and conduct one (1) additional monitoring event..." to "In addition, the Unified Command directs the Environmental Unit Leader to conduct one (1) additional monitoring event..."

Thank you!

Very respectfully,

Charlene L. Downey, CAPT
Sector Commander
USCG Sector LA-LB

Subject: [Non-DoD Source] Section 5 Amendment and Additional Monitoring ICS213

UC,

Please review the attached document. The document contains an ICS 213 requesting to amend Section 5 Monitoring Plan and authorizes additional monitoring. Page two of the document is more informative, identifying rainfall increments at El Capitan, the Gaviota Coast and Refugio Pass for 2017.

If you agree to the content of the document please sign it digitally and reply to all.

Respectfully,

Ryan Andersen

Planning Section Chief

Refugio Incident

GENERAL MESSAGE		
TO: Unified Command via PSC	POSITION: FOSC, EPA, SOSC, LO SC, RPIC	
FROM: Dan Dewell	POSITION: PIO	
SUBJECT: Revised Statement for the Refugio Web Site	DATE: 02/21/2017	TIME: 1330
MESSAGE:		
<p>(Updated March XX, 2017)</p> <p>Unified Command for Refugio Beach oil spill response operations disestablished</p> <p>The interagency Unified Command formed to coordinate the cleanup of the 2015 Refugio Beach oil spill was officially disestablished March 02, 2017 following the completion of monitoring of spill affected areas. The monitoring program site visits did not discover any new areas affected by oil spilled from Plains Pipeline 901.</p> <p>The Unified Command structure, which involves federal, state, and local agencies as well as the responsible party, is used for most oil spill response operations under the National Oil and Hazardous Materials Spill Response Plan. Information about the Refugio Beach oil spill cleanup operations, and contact information for UC agencies and organizations are available on this website, www.refugioresponse.com. The U.S. Coast Guard, California Dept. of Fish and Wildlife and Santa Barbara County after actions reports that detail the response's actions, lessons learned and recommendations can be found here http://www.rtr9.org/go/doctype/2763/217078</p> <p>Questions about cleanup operations may be directed to:</p> <p>Federal On-Scene Coordinators</p> <ul style="list-style-type: none"> • U.S. Coast Guard, Sector Los Angeles. Phone: 310-521-4260 • Environmental Protection Agency. Phone 415-947-8120 <p>State of California On-Scene Coordinator</p> <ul style="list-style-type: none"> • Dept. of Fish and Wildlife, Office of Oil Spill Prevention and Response. Phone 916-322-1683. <p>Local On-Scene Coordinator</p> <ul style="list-style-type: none"> • County of Santa Barbara. Phone 805-681-5526. <p>Responsible Party</p> <ul style="list-style-type: none"> • Plains All American Pipeline. Phone 866-809-1290. <p>The Unified Command for the Refugio Beach oil spill response was concerned solely with coordinating cleanup operations. Although public agencies represented on the Unified Command may be involved in other matters related to the oil spill, such as investigations, natural resource damage assessments, or environmental impact studies, the Unified Command itself is not involved with these activities. Please contact agencies involved in such matters directly for information and updates about them.</p> <p>The Los Angeles-Long Beach (LA-LB) Area Committee is a permanent group that consists of representatives from federal, state, and local governments who are responsible for maintaining an Area Contingency Plan that outlines the strategy for a coordinated response to a discharge of oil or a release of hazardous substances. Industry, academia, environmental groups, and other non-government organizations have input to the process at the subcommittee level. The LA-LB Area Committee will continue to incorporate lessons learned from the 2015 Refugio Beach oil spill in to the LA-LB Area Contingency Plan, which can be found at: https://www.wildlife.ca.gov/OSPR/Preparedness/LA-LB-Spill-Contingency-Plan. If you are interested in participating in the Area Committee, please call (310) 521-3776.</p>

GENERAL MESSAGE			
TO: Unified Command via the Planning Section Chief		POSITION: FO SC, SO SC, LO SC, RPIC, EPA OSC	
FROM: Mike Connell		POSITION: EUL	
SUBJECT: Section 5 Monitoring Completed		DATE: 03/02/2017	TIME: 1100 hours
MESSAGE			
<p>As stated in the UC approved plan, "Monitoring of Section 5 will not be considered complete until an inspection is completed following a significant rain event within the one year monthly monitoring period, monthly monitoring will be suspended at the end of a year and the team will visit the site following this significant rain event. If no oil or geologic instability is observed at the end of the period, monitoring will be considered complete".</p> <p>As indicated by the final inspection documentation, we have met the 3.5 inches or more of rain in a 24 hour period with no re-oiling or geologic instability. In addition, no issues or follow up actions were recommended by the County or Santec (see Monitoring form prepared on 02/24/17 by County and Santec). Based on the conditions of the Section 5 Monitoring Plan, all requirements have been met, and monitoring of Section 5 is complete.</p>
